May 7.—A second dis-
patch from Commodore Dewey received
stated that he had taken
the fortifications at Cavite
and effected a permanent landing
on the island. He also states that Ma-
nilla is in the hands of the pres-
ent American hero achieves another
victory and grasps the laurels.

May 7.—After
a report of the engagement
between the American and Spanish
fleets on the day of the battle by
the Spaniards.

Report of Commodore Dewey was
received from Hong Kong, China, the near-
est telegraphing point, by the United
States dispatch boat McCulloch. This
report is highly complimentary
to the American navy and marksman-
ship and demonstrates
the number nor strength of
the Spanish ships but by cool headed
direction of shots.

Report states that all of the
ships at Manila have been disabled
by Dewey and that the
city of Manila 10 miles wide and
long is entirely at his mercy.

Very strongly fortified
by the Spaniards. Beside
the harbor a thorough system
of mines had been placed
to annihilate hostile
ships. After the silencing of the bat-
tle, however, it is thought these
were rendered useless.

Report states that it will be im-
possible for the commodore to take the
city and a larger force of men ar-
ranged to be made for the United
States cruiser Charleston and one of
the Pacific ocean greyhounds
arrived at once from San Francisco
with a large number
of men and sufficient ammunition to
occupy the island of Manila
and the forts.

Report states that the Spanish
ships destroyed were:

Also four gunboats were destroyed.
New states in his report that he
has taken the city. It has hereto-
fore been supposed that it was done by
the Spaniards.

Williams, wife of the United States
consul at Manila, has received the
following dispatch from her husband at
Hong Kong: "The Spaniards have

named Boyer has been arrested and
imprisoned here for trying to cable to
America details of the movements of
the Spanish fleet here.

Chicago, May 7.—Private dispatches
to the Chicago Tribune today state
that one of the Tribune correspondents,
J. H. Whigam, has been captured and
shot by the Spaniards in Cuba.

prize was brought in this morning by
the cruiser Montgomery. She is the
big Fraguati and was captured by the
Montgomery while trying to run the
Havana blockade.

SAMPSON'S SHIPS.

Engagement With Spanish Armada
Hourly Expected.

Martinique Island, West Indies, May
7.—Five warships which are supposed
to be Spanish were sighted off this
island bound post haste to Porto Rico.
As Sampson's fleet is headed for Porto
Rico from another direction a battle
will probably be the result in a short
time. Sampson is going to Porto
Rico with four ships.

TROOPS.

They Will Be Sent to Admiral Dewey at
Once.

Washington, May 7.—It has been
officially decided to send a transport
with troops to the assistance of Com-
modore Dewey. The swift steamer

pose and will be escorted by the cruiser
Charleston.

THE WEATHER. FOR AUSTIN.

Fair and warmer tonight and Sunday.

THE JURY WAS OUT JUST 45
MINUTES.

Unbrotherly Action of Albert Filbrandt Toward His Sister, Mrs. Caro- line Matrick.

The jury in the case of NeNeil, Hig-
gins & Co. vs Stephen M. Austin of
this city returned a verdict in favor of
Mr. Austin after being out just 45 min-
utes. Twenty days was given Valentine
& Ellsworth, the plaintiffs' attorneys,
to make a motion for a new trial and
60 days given to file a bill of excep-
tions.

Mr. Austin is elated over his victory,
as also his attorneys James O'Hara and
George W. Bridgman.

Judge Coolidge issued a temporary
injunction restraining Albert Filbrandt
from disposing of property in the city
of St. Joseph. This property was
purchased a few years ago by Mrs.
Caroline Matrick, a sister of Filbrandt,
for \$1,300. She paid cash for the
property and to do so borrowed \$600
of her brother. A few months after-
ward he came to her and said he must
have his money and she told him to sell
the property for not less than \$1,100 and
take his \$600. Last March he induced
Mrs. Matrick to give him a deed of the
place and at the same time had her
sign a paper to the effect that she
should give him possession of the property
April 1, 1898. Mrs. Matrick, who
cannot speak or understand a word of
English did not know the nature of the
paper she was signing and it was only
when her brother attempted to take
possession of the property that she
found she was without a house. The
action of Judge Coolidge will bring the
matter in the courts.

Kelley & Bruehl are Mrs. Matrick's
attorneys.

The case of Edwin A. DeWitt vs the
M. B. H. & C. railway company came
up yesterday afternoon and one witness
was examined. The case will be con-
tinued next Tuesday.

In the case of Alex. Stewart vs Al-
bert Franz the defendant was given
five days to make a motion for a new
trial and 90 days to file a bill of excep-
tions.

County Clerk Needham is in Hartford
today on business.

Alfred Sharul, who was ordered to
appear yesterday by the court, ap-
peared and as the writ of certiorari had
not been returned by the court he was
furnished bonds to again appear May
23.

Wanted Two of Them.

In a certain manufacturing town it
was a common thing not two years ago
for skilled workmen to save sufficient
money wherewith to build houses for
themselves. A great deal of rivalry ex-
isted among these men as to who should
have the best house, with sometimes cu-
rious architectural results. A and B
were two rivals. A having built a
house, B, whose turn soon afterward
came, determined to outdo him. So he
called in a well known architect to pre-
pare plans. Asked what aspect he would
like to his house, B, scratching his
head, inquired:

"Aspect? What's that? Has A got
one?"

"Why, of course," said the architect.

"He couldn't possibly."

"Then put me on two of 'em."—
Pearson's Weekly.

Battleships and Cruisers.

"Say, pa," asked little Willie
Spriggs, "what's the difference between
battleships and cruisers, anyway? They
look about alike in all the pictures that
I ever seen."

"Pooh!" Mr. Spriggs ejaculated.

"Don't you know the difference between
a cruiser and a battleship?"

"No, and I ain't seen anybody that
does, either," the boy replied.

"They must be crazy, then," said
Willie's pa. "Why, the papers have
told the difference dozens and dozens of
times. Cruisers are named after towns
and battleships are named after states.
Any fool ought to know that by this
time."—Cleveland Leader.

Of Course.

"Do you belong to a Don't Worry
club?"

"I do, and I don't mind saying that
the rules and regulations and theories
and plans worry me nearly to death."—

ASKING INTERVENTION

Report That the Spanish Queen Regent Has Again Appealed to the Powers.

MORET'S CHALLENGE TO THE FOE.

Defies the Opposition in the Chamber to a Vote on Confidence.

Report That Frenchmen Are Feeling Ugly Over the Capture of a French Steamer. Since Released—Spaniards Fall to Head Off an American Consul—Our Senate and the War Revenue Measure—Absolutely No News From Dewey, and Sampson Unheard From.

London, May 7.—A special dispatch from Vienna says the queen regent has again appealed to Emperor Francis Joseph in favor of European intervention. The Austro-Hungarian foreign minister has addressed a note to the powers on the subject.

Madrid, May 7.—Moret in the chamber yesterday challenged a direct vote of confidence, declaring that the government would resign if it was not carried.

London, May 7.—A special dispatch from Paris says that the seizure of the LaFayette has intensified the bitter feeling against the United States. Angry expressions are heard. The United States embassy is under special police protection in view of a possible hostile demonstration.

Liverpool, May 7.—Steamers from the Canary Islands report that the American consul at Las Palmas has left suddenly with the plans of the harbor. There are 12,000 Spanish troops in Grand Canaria alone. The authorities are pushing forward the fortifications, and making desperate attempts to raise revenue—taking British property without compensation.

Washington, May 7.—One feature of the session of the cabinet yesterday was a discussion of the attitude of the senate in providing the "sinecure" for defraying the expenditures of the war. The president has received positive information that the senate committee on finance, which is still struggling with the revenue bill, will report that measure with the bond feature eliminated.

Washington, May 7.—After another day of waiting in the navy and state departments the doors were again closed in the evening yesterday without a word from Commodore Dewey or any other reliable source as to what happened at Manila after the cable broke. During the course of the day there were rumors that the cable communication had been restored, but these were soon found to be baseless and the excitement subsided. One comfort the officials take in the situation, although it is of a negative character, is that the lack of communication is a probable evidence that the Spaniards, at least, are not in control of Manila, else they would speedily communicate that fact to the rest of the world through the cable. If the delay means anything it is believed not to be more serious than that Commodore Dewey has been delayed in carrying out fully his plans for the occupation of Manila.

Must Give the Commodore Time. In other words, it may not have been possible for the commodore, within the space of five days, to effect the destruction of the Spanish fleet, the silencing of the forts at Cavite, the seizure of Corregidor, the capture of Manila, and finally the restoration of cable communication. If he has been delayed beyond Tuesday or Wednesday in carrying out this extensive programme it is not at all surprising that he has not been heard from through a dispatch boat. The state department is in close touch with Consul Wildman at Hong Kong, who is expected to supply the earliest possible news from the Philippines. The only message received from the consul yesterday was one informing the department that four families of refugees in the Philippines had petitioned for admission to the United States citizenship, something manifestly impossible for the consul to grant under the naturalization laws.

Will Hear of Sampson When He Strikes. Respecting Admiral Sampson's movements the department is still mute, although it is apparent that interesting news is expected on that subject within the next three days. Therefore it is quite certain that the rumor which originated in London to the effect that Sampson has undertaken a campaign in the Canaries is dismissed without attracting attention at the hands of the officials, since it would be manifestly impossible for the admiral to arrive at the Canaries within so short a space of time as three days. A leading diplomatic official said there was no reason why foreign nations should be given information of an attack on the Canaries. Since the United States was conducting a war it had the right, he said, to choose its own points of attack without keeping other governments advised of its purposes.

LONDON INTERVENTION FAKE. Subject Is Not Even Being Discussed at the Present Time.

Washington, May 7.—The London report cabled yesterday that the continental powers were seeking to have England join them in intervention between the United States and Spain was lacking in verification in official and diplomatic quarters here. The state department has received no suggestion of such intervention, and does not believe it is contemplated. The foreign representatives here, including those of Great Britain, France, Germany, and Russia, meet these reports with specific denials, and declare that intervention is not being discussed in any way at the present time. These rumors have been spread by the London press.

Moves towards intervention, and they doubtless would be aware if such a move was on foot at present.

The utterance of Emperor William before the reichstag yesterday confirmed what the German officials here have maintained from the first—namely, that Germany would observe strict neutrality, even though no decree of neutrality was issued. Russian officials take the same views as to the purpose of Russia to keep out of any intervention which would be inimical to the United States. The French authorities here do not consider intervention a live question at present, and since France issued her decree of neutrality the French officials dismiss reports that France will participate in intervention.

The British officials have received no word concerning recent moves for intervention, and they consider such moves as quite inopportune under existing circumstances. A leading member of the diplomatic corps said: "What could we intervene about? It could not be because the United States had occupied the Philippines, because we do not yet know that the Philippines are occupied. It could not be because Porto Rico may be occupied, for we have no official information yet that any movement against that island is contemplated. In fact, even if continental Europe desires to intervene, it has no facts before it thus far on which to base intervention."

SEIZURE OF THE LAFAYETTE.

Was a Mistake and the Blue Jackets Will Get No Prize Money.

Washington, May 7.—Any international difficulty connected with the seizure of the French steamer LaFayette has been removed by the prompt release of the vessel immediately upon notice of her capture reaching the state department. The explanation for this action on the part of the administration is given in the statement which follows, issued from the White House last night: "The LaFayette was released in pursuance of orders which were issued by the navy department previously to her seizure, but which had not been received by the commanding officers of the vessels that made the capture."

"The facts are that on April 23 the French embassy made an informal inquiry as to whether the LaFayette, which left St. Nazaire, France, for Vera Cruz, by way of Havana, before war was declared or information of the blockade was received, would be allowed to land at Havana certain passengers, her mail bags and the dispatch bag of the consul general of France, and take some French passengers on board. An assurance was given that if this privilege should be granted the steamer would be forbidden by the French consul to land goods."

"The matter was duly considered, and it was decided that without regard to the strict law of blockade, and as an act of courtesy, the request of the French government should be acceded to. Orders were accordingly sent on the 24 day of May. When information was received of the capture of the steamer and of her having been brought to Key West these orders were communicated to the captors with instructions to release the steamer and to see that the orders were fully delivered, so that they might be carried into effect. No demand was made either by or on behalf of the French government, directly or indirectly, for the steamer's release."

MIGHTY CUTE, THAT, OF DEWEY.

But Not Half So Cute as the Constructor of This Special.

New York, May 7.—A special to The Journal from Montreal says: A special to La Presse from Madrid states that Commodore Dewey's squadron could only get an entrance into Manila bay by first severing the wires connecting the submarine torpedo system with the forts. This having been done, Dewey had no difficulty in doing what he did; that is to sail into the bay as on the high seas. The special then goes on to say that he engaged the Spanish squadron, with the result as told. But it appears that during the fight the Spanish authorities set to work reconstructing the wires under the fire of the American warships.

The severed wires were patched so quickly that before the fight was over no ships could move any more in the bay without the greatest danger of being blown up. Now, says the special to La Presse, this startling piece of news reached Madrid in the form of a cipher dispatch from Hong Kong, where it was discreetly circulated among the leaders of the Spanish groups. The dispatch seems to be the only explanation of that five days' silence from Dewey's squadron.

PREPARATIONS FOR EMBARKATION.

Seven Transports Now at Tampa Ready to Start with Men for Cuba.

Tampa, Fla., May 7.—Preparations for the embarkation of the United States troops are rapidly being completed. Seven of the transports to be used in carrying the soldiers and their horses and supplies to Cuba, are now at Fort Tampa. Nearly all of the ships have been given a full supply of coal. The Florida, Berkshire and Allegheny had a large force of carpenters working on them all day erecting stalls for the accommodation of the cavalry and artillery horses.

Rations enough for 7,000 men for thirty days are expected to arrive today. In spite of the intense heat the men were given long drills yesterday. They are rapidly becoming acclimated, and when the time comes for shipment as bronzed and trained a lot of men as ever shouldered guns will break camp and embark.

Another Regiment Goes to Tampa.

Chickamauga National Park, Ga., May 7.—The Twenty-fifth Infantry left at 3 p. m. yesterday for Tampa in command of Colonel Hurt, who though officially notified of his appointment as a brigadier in the volunteer army was ordered to accompany his regiment south. Other regiments now in camp have been ordered to rid themselves of all heavy equipments of every sort and hold themselves in light marching order.

Will Be Seven Army Corps.

Washington, May 7.—A general order providing for the division of the regular and volunteer armies into seven army corps was issued at the war department yesterday. This announcement is expected to be followed by the assignment of the major generals who will command the respective corps.

THE general impression regarding Dewey seems to be that "he didn't Dewey thing to them."

ENGLISH song-writers have often referred to the "dewy eve." It makes a Spaniard tearing mad to ask him about the "Dewey morn of May 1."

THE candidates who expect to run for county office this fall will see to it that their chances are not defeated by the turning-down of Hazen S. Pingree.

When the history of the battle waged against the Spaniards in Manila harbor by Commodore Dewey is written it will without doubt surpass any naval achievement won in any age by any fleet.

GOVERNOR Pingree is making an excellent record with the state militia at Camp Eaton. When it comes right down to real business the governor, who possesses other faults, is always there.

It is now said that Commodore Dewey was wayward in his youth, but that a sound thrashing which he got from a school teacher made a man of him. This should encourage teachers to be as free, in the hope that the ways may be the result. When a man is realized or not, the result will undoubtedly be the same. Scriptural advice in the case of children is as plain as the palm days.

Alger will only be by the way. When the time comes to task for the preparations that if the powder is not wanted by the government would take the supply out of the hands.

COMMERCE IN PIPESTONE

Unmistakable Signs of Improvement in the Trade Situation.

New York, May 7.—Bradstreet's says: Evidences accumulate that the corner has finally been turned in the trade situation and that circumstances which have hitherto been regarded as disquieting have begun to give way to more cheerful conditions. While it is claimed, and perhaps with justice in many cases, that the changes yet noted are largely sentimental, and that little that is tangible is to be cited in the direction of improvement, it is not to be forgotten that the dullness and even depression ruling for some time past was likewise largely sentimental, and it is now beginning to be admitted by many—had even less of a basis to rest upon than the present unmistakable signs of improvement.

A new sense of national strength and energy seems unquestionably to have developed since the news of the American victory at Manila. Among the more favorable features of the week have been the slightly easier tone in the money market and a little more disposition on the part of financial institutions to accommodate legitimate demands of trade. Prices for wheat, on seaboard and at the interior, have broken all records for many years past, due to a considerable extent to foreign recognition of the fact that the world's wheat stocks today are smaller than they have been for many years past. It, of course, would be useless to deny that there are some unfavorable features in view, notably in the cotton and woolen industry.

Business failures are slightly smaller this week, aggregating for the United States 240, against 245 last week, 228 in this week a year ago, 267 in 1896 and 224 in 1895.

regiment began yesterday afternoon.
Company B, of the Third, commanded
by Captain Preston, of Joliet, was ex-
amined first, he being the ranking cap-
tain of the First battalion. Colonel
Young, commanding the First cavalry,
on permission of the United States
army has appointed Lieutenant Ray
Harper, Seventh cavalry, U. S. A., lieut-
enant colonel of the First cavalry of
Illinois. Lieutenant Colonel Harper ar-
rived yesterday. Rev. C. S. Bullock, of
Chicago, has been appointed chaplain
of the First cavalry by Colonel Young.

Big Crowd Expected Tomorrow.

Indications are that another large
crowd will visit Springfield and Camp
Tanner tomorrow. General Barkley is
making preparations to entertain all.
A grand military review may be given
Governor Tanner that day. If arrange-
ments are carried out all the troops will
pass through the grounds of the ex-
ecutive mansion and be reviewed by the
governor and his party from the bal-
cony. Since the rigid examinations en-
countered a few companies at Camp Tan-
ner are not full to the maximum, and
the officers have asked to send to the
home stations for recruits. A general
order was issued yesterday covering the
case, which orders that "civilians
brought to Camp Tanner from home
stations for the purpose of filling com-
panies to the minimum or maximum
required by law, will be transported to
Camp Tanner by the state of Illinois,
but all men rejected by the surgeons, or
who fail to enter the volunteer service
after arrival, must be returned to their
homes at the expense of the officer
bringing them to this post."

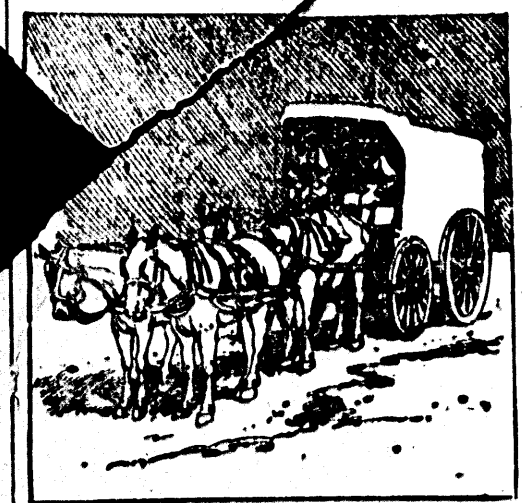

New Muster Officer Arrives.

Captain Eben Swift, U. S. A., located
here, and who has been acting as mus-
tering officer of the government up to
this time, has been tendered a major-
ship by Governor Tanner and accepted.
Captain Swift will in a few days be
made major of the Third battalion of
the Seventh regiment, being formed to
fill up the regiment, which formerly
had but two battalions and two majors.
Captain Swift has been assistant in-
spector general of the I. N. G., and has
finally secured a place with the Illinois
troops in the field. He still retains his
position in the United States army. He
will be succeeded here by Captain C. S.
Roberts, Seventeenth regiment, U. S.
A., who has already arrived here.

IN A HURRY FOR BADGERS.

Washington Wants to Know How Soon a
Regiment Can Be Ready.

Camp Harvey, Wis., May 7. - Captain
Buck, the regular army officer here
who is to muster to the soldiers, re-
ceived a telegram from the war depart-
ment asking him how many troops he

A COMMISSARY WAGON.

could muster in by tomorrow night. He
replied that he could have one regim-
ent, the Third, ready at that time, but
he stated that it was his intention, un-
less otherwise ordered, not to muster in
any troops whatever until every mem-
ber of the three regiments is examined
by the surgeons. The probabilities are
that the Third regiment will be mustered
into the United States service imme-
diately. The activity of Captain Buck
and a telegram received from Washing-
ton indicates this. He said the telegram
was of the same tenor as the one re-
ferred to above and he sent back the
same reply.

The new shoes were distributed in
yesterday. They are heavy, sub-
stantial, serviceable articles. General
Tanner is wearing a pair of them
in order to determine by per-
sonal experience the quality of articles
which are to be issued to the troops.

which are to be issued to the troops.
The fire was put out with trifling loss. The second
week at Camp Harvey commenced yester-
day with a bright sun and a north-
east wind, which has thoroughly dried
up the camp. The weather was still
chilly. It was essentially a dull day in
camp, and little outside of the ordinary
routine transpired. An influx of visi-
tors is expected this afternoon if the
weather is favorable, and big crowds
will come Sunday regardless of the
freaks of the weather bureau.

Out of eighty-two men in Company G,
Wausau, one was rejected. The seven-
ty-nine men of Company H, Menominee,
lost two by the examination. Of the 102
men in Company I, West Superior, four
fell by the wayside. The Tomah com-
pany, 100 strong, Company K, lost four
men. Ten companies of the Third regim-
ent had been examined up to noon
yesterday. Two more companies, finish-
ing the Third regiment, were
handed in the afternoon and then work
was commenced on the field and staff
officers of the Second regiment. Lack
of muscular development and lack of
weight is the commonest cause for re-
jecting men who want to be soldiers.
The height most desired is from 5 feet 6
inches to 5 feet 9 inches. Men from 135
to 150 pounds are preferred in the mat-
ter of weight.

Deserter Found Badly Injured.

Lincoln, Neb., May 7. - A man in a
state militia uniform, found desperat-
ly wounded and probably dying by the
railroad tracks several miles from here
yesterday morning, has been identified
as Calvin Hopper, a private in company
I, who it is charged deserted Camp
Saunders Wednesday. He was taken to
the town of Dewitt, where he lies un-
conscious. Some claim that the wounds
were self-inflicted.
